

BUILDING BASICS

We are the authorized distributor for the

Tyvek

Family of Products

www.consolidatedgypsum.ca

DuPont™ Tyvek® HomeWrap®
helps prevent outside water from entering the walls and helps to seal the home to keep outside air where it belongs. / 18" x 100' 50 Sq. ft. / 3' x 100' 300 Sq. ft. / 9' x 100' 900 Sq. ft.

DuPont™ Tyvek® CommercialWrap®
has added durability needed for commercial construction, providing excellent tear strength and allowing up to 270 days of UV exposure. 10' x 125' roll

DuPont™ Tyvek® Stuccowrap®
Specially designed for use with stucco facades as it has an engineered grooved surface that can help better manage water when installed as a drainage plane. Curing stucco over this wrap helps reduce the susceptibility to cracking of the scratch-coat and can help promote a stronger stucco facade. 5' x 200' roll

DuPont™ Tyvek® Tape
is the best available seam tape for sealing weather resistive barriers. 60mm wide x 66m long roll

DuPont™ Tyvek® FlexWrap®, StraightFlash®, Flashing Tape
Flashing products that defend against water intrusion in potentially problematic areas of buildings.

DuPont™ Tyvek® Roofliner
A lightweight, easy-to-use synthetic, premium roofing underlayment that offers Class A fire rating, superior tear and UV resistance along with better water hold-out and more resistance to mold growth than traditional roofing felt. 4' x 250' roll

DuPont™
Tyvek®

No Hose. No Air. No trigger. No Problem.

The Stinger CH38A Autofeed Cap Hammer delivers the holding power of a cap with the speed and ease of a hammer tacker. The CH38A is the favorite for securing roofing felt and housewrap.
